Steps to make product as subscription Product using impex

Any product can be made subscribable by using below impex

#Step1. Create subscription frequency

INSERT_UPDATE GPSubscriptionFrequency;code[unique=true];frequency
;freq1;Weekly7

#Step2. Create contextual attribute for the product and associate subscription frequency

$productCatalog=gpUSProductCatalog
$catalogVersion=catalogVersion(catalog(id[default=$productCatalog]),version[default='Online'])[unique=true,default='$productCatalog:Online']
INSERT_UPDATE
ContextualAttributeValue;$catalogVersion;product(code,$catalogVersion)[unique=true];context(code);subscriptionfrequency(code);subscribable
;;2112014;DixieContext;freq1;true

#Step3. Enter % off under 'PriceRow.percentageDiscount' attribute in the Prices Tab for product from backoffice
